Dear A Deb TEST,

Thank you for participating in our child screening/monitoring program!

The enclosed questionnaire from the Ages and Stages Questionnaires®, Third Edition (ASQ-3™), is a screening tool that provides a quick check of your child's development. Once you receive the questionnaire please return it to Help Me Grow within two weeks to maintain the validity of the tool.

The ASQ is a great tool for parents that helps to reveal your child's strengths, uncover any areas of concern and determine if there are community resources or services that may be useful for your child or your family.

There are two sections in the questionnaire that you will be completing. The first section includes six questions in each of the five developmental areas. The five developmental areas include communication, gross motor, fine motor, problem solving and personal-social skills. Your child may be able to do some but not all of the items which is normal. Read each item in the questionnaire and mark:

YES - if your child is performing the skill

SOMETIMES - if your child is performing the skill but doesn't yet do it consistently

NOT YET - if your child does not yet perform the skill

The second section asks questions about your child's overall development and any concerns you may have about his or her development. Answer questions by marking yes or no, and if indicated, please explain your response.

We hope you have fun completing this questionnaire with your child! Learning about your child's growth and progress is an empowering and celebratory experience. Make sure he or she is rested, fed and ready to play before you try the activities. Once we receive the ASQ-3 we will call you to convey the results of the questionnaire and to answer any questions or concerns you may have.

Have Fun!

The Help Me Grow Team
